

FIG. 1 Powder x-ray diffraction patterns for montelukast sodium Form A, monosolvate, form B, and hemisolvate.

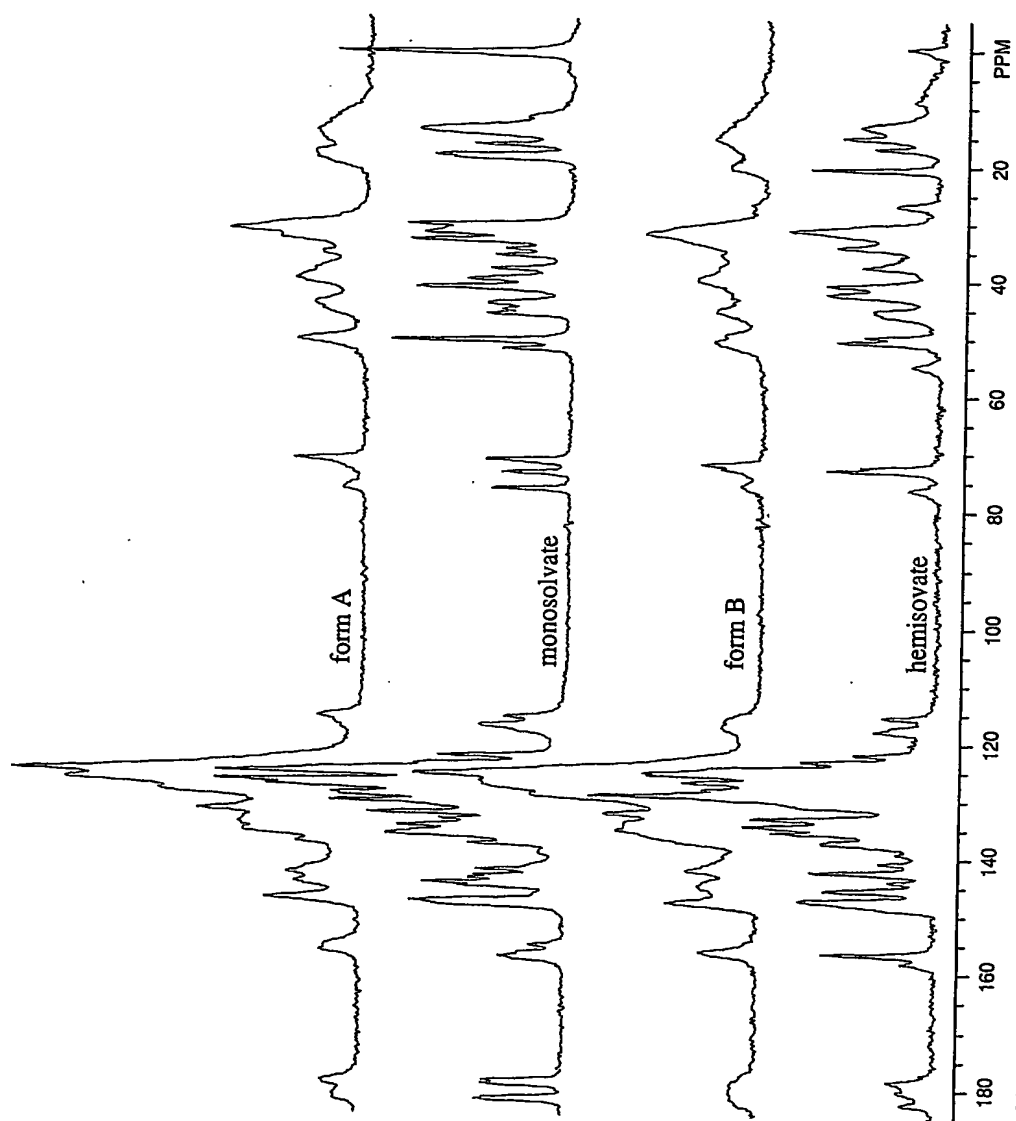

FIG. 2 ^1H - ^{13}C CPMAS room-temperature NMR spectra of montelukast sodium form A, form B, monosolvate, hemisolvate.

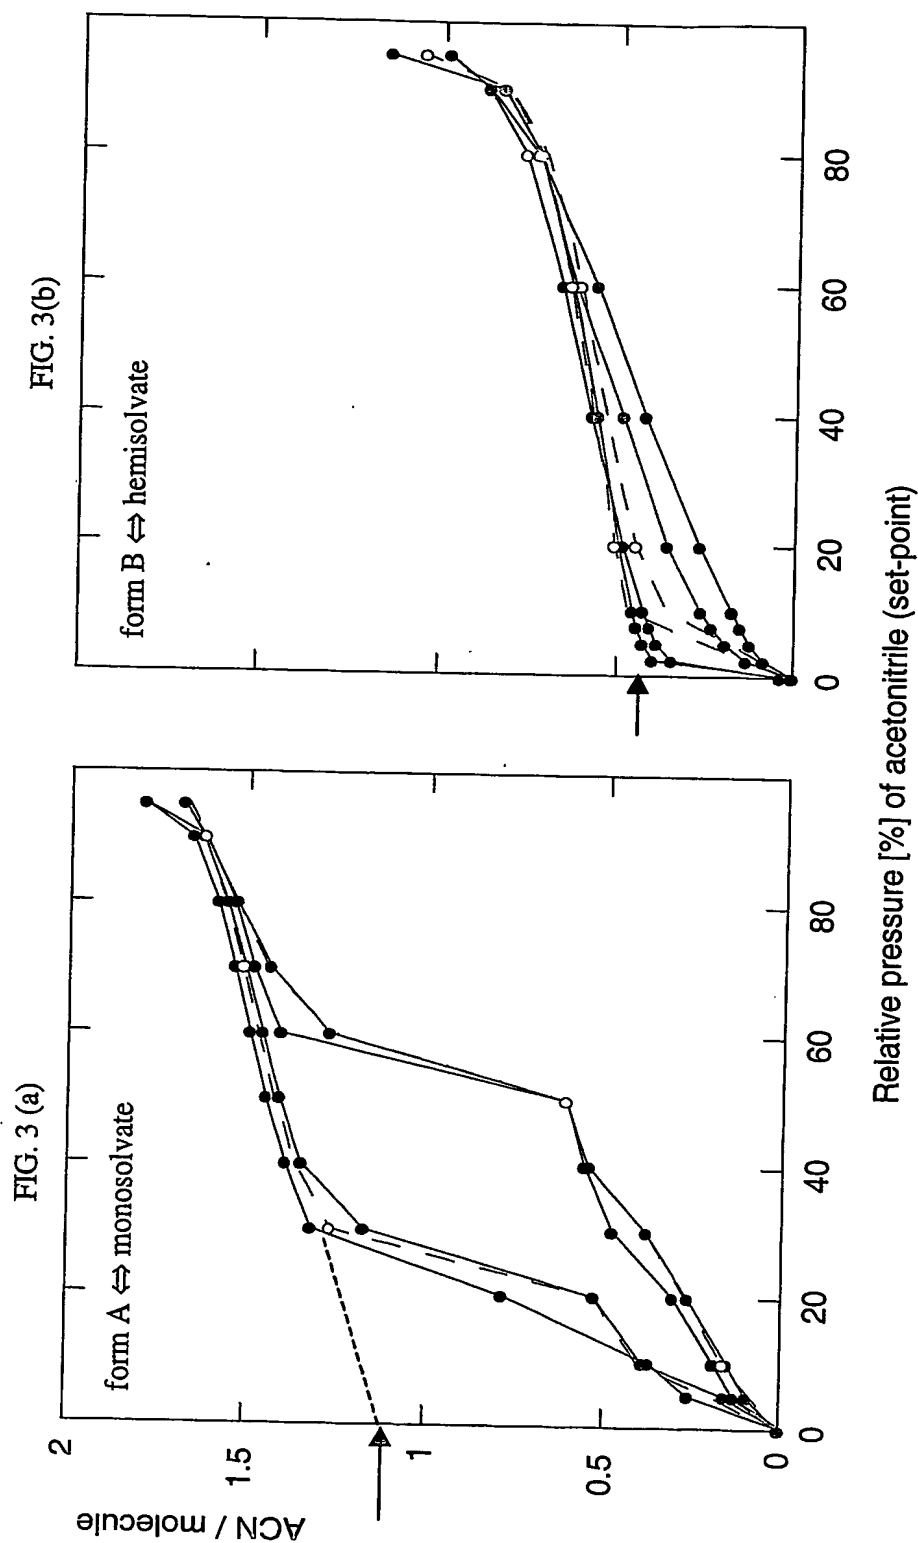

FIG. 3 CH₃CN sorption isotherms of montelukast form A [3(a)] and form B [3(b)]. (This statement is not shown in drawing submitted: Red circles were drawn as triangles in the application paper)
